

Pupil Premium Report

The Pupil Premium Grant, launched by the Government in 2011-12, is additional to main school funding (Dedicated Schools Grant -DSG). This is allocated to schools as a means to address the current underlying inequalities between children eligible for free school meals (FSM) and their peers by ensuring that funding to tackle disadvantage reaches the pupils who need it most. The Pupil Premium is allocated to schools to work with pupils who have been registered for free school meals at any point in the last six years (known as 'Ever 6 FSM') and for those who have been looked after for 1 day or more, adopted from care or has left care under a special guardianship order, a residence order or a child arrangement order. Historically it also included children of service personnel. In making provision for socially disadvantaged children, we recognise that not all children who receive FSM will be socially disadvantaged. We also recognise that not all children who are socially disadvantaged are registered or qualify for FSM. The school therefore allocates the Pupil Premium Funding to support any child or group of children we have identified as being socially disadvantaged.

Outline of Pupil attainment priorities

In making provision for pupils to improve at the correct rate in terms of their educational development the school needs to identify and understand the priorities required to achieve the required outcomes. The identification of priorities will be determined by;

1. Observing the children and gaining an understanding of their development needs and formulating a programme of interventions and actions to meet them.
2. Analysing attainment data (current and historic) including trends and progress at a school, local and national level so that the current benchmark can be identified.
3. Undertake a review of the previous plan to address these needs to ascertain their level of success and whether to continue, cease or change how they are delivered.
4. Assess the achievement of best value in the delivery of interventions and actions.
5. Researching improvements in improving attainment outcomes, for example, through Sutton Trust

The identification of the appropriate priorities are;

1. Focussed 1-1 Phonics Tuition and Intervention Groups
2. Provision of staff for 1-1 reading to aid comprehension
3. Provision of staff for 1-1 for numeracy support
4. Breakfast Club
5. Partial funding of School Trips
6. Parent Learning Workshops
7. Year 6 extra support for SATs

OUTCOMES:

Drawing conclusions from such small numbers which are below statistical significance must be taken with caution. Our approach will continue to be based around setting individual targets for all students and teaching challenging lessons. Our tracking data shows that there was no significant difference in the progress made by PPG and none PPG students.

Progress - Whole school and PPG 2018-19						
	Reading		Writing		Maths	
	% age reaching target	% age reaching target	% age reaching target	% age reaching target	% age reaching target	% age reaching target
Whole School	79	68	80	76	79	64
